MIRAMONTE™

PAINTED WOOD SHUTTERS

MIRAMONTE™

Shutters will enhance the beauty of your home and elegantly sculpture the light coming through your windows. Beauty, Elegance and functionality are all combined in custom shutters.

Shutters give you total command of your space by allowing minute or grand changes in your view, privacy and light. Plus they have excellent energy efficiency and sound insulation.

Considered by many as the highest quality window treatment available, they will increase the resale value of your home! Whether traditional or contemporary, your home's decor will be equally complemented by shutters.

WOOD SHUTTERS BUILT WITH OLD WORLD CRAFTSMANSHIP

MiraMonte is our Painted hardwood shutter that's made in the USA with traditional wood craftsmanship. We start out with hand selected woods that are run through our Kiln drying process. Each shutter is then custom build, hand sanded and painted using our proprietary *4 Coat Baked in Finish™* Technology to get a high quality and durable finish.

We seal and prep the wood with 2 coats of primer, then apply 2 coats of finish paint that is baked on to give you one of the most durable paint finishes available. Tradition meets technology in our fine quality Miramonte wood shutters.
