AllView Plus™ is ShutterSMART's value tier commercial shutter: 100% polyresin construction with our proprietary DuraTex™ matte finish, giving the soft look of painted wood with none of the upkeep. Every panel comes standard with our AllView concealed rear tilt rod, so guests and residents see clean, open views instead of hardware. Extruded in our own Los Angeles plant and built to order by a family-owned manufacturer with over 30 years of experience, AllView Plus delivers a consistent, durable shutter at a factory-direct cost per opening for multifamily, senior living, hospitality and institutional projects.

34"	Hidden Tilt	2 to 3 Weeks	Los Angeles
MAX PANEL WIDTH	STANDARD ON EVERY PANEL	COMMERCIAL LEAD TIME	U.S.-EXTRUDED PROFILES

WHY ALLVIEW PLUS FOR COMMERCIAL PROJECTS

Wide 34" Panels, Hidden Tilt Standard

Panels up to 34" wide mean fewer panels and fewer stiles per opening. The AllView concealed rear tilt rod is included on every panel, not an upcharge, for clean sightlines and nothing on the face to snag or break.

Built for Heavy Use

100% polyresin resists moisture, humidity and daily wear. A strong fit for bathrooms, kitchens and high-traffic rooms.

Paint-Free Durable DuraTex™ Finish

Wipes clean with a damp cloth. No sanding, repainting or refinishing cycles over the life of the property.

Cord-Free by Design

No cords or loops in any room, supporting child and resident safety.

2 to 3 Week Commercial Lead Time

Profiles extruded in our own Los Angeles plant and shutters built to order in North America, so your schedule is never tied to overseas lead times.

Factory-Direct Value

No middlemen. Uniform finish and quality across hundreds of openings at a competitive cost per opening.

Limited Lifetime Warranty

Backed by the manufacturer, not a distributor.

Dedicated Commercial Team

One partner from RFQ and submittals through samples, fabrication and delivery tracking.

RECOMMENDED APPLICATIONS

Multifamily & Mixed-Use | Senior Living | Hotel Guest Rooms & Suites | Healthcare Offices & Common Areas | Education & Student Housing | Corporate Offices

SHUTTER CONFIGURATIONS

System	Description	Best For
Standard Hinged Panels	Panels hinge to the frame and fold left or right in 1, 2, 3 or 4 panel layouts.	*Windows, French doors*
T-Post Shutters	A fixed vertical post divides wide openings so panels fold from each side.	*Wide windows*
Bypass Track	Panels slide past each other on a top track, keeping wide openings fully usable.	*Sliding glass doors, wide windows, closets*
Arch Tops	Arched openings matched with ShutterSMART poly arches, color-matched to AllView Plus. Offered as an upgrade.	*Arched and half-round windows*
